

# Middle Grades Institute: Project-Based Learning for the Whole Child

July 23-24, 2020

Montreal, Quebec

Project-based learning can help students apply collaboration and creativity skills, problem solve, and develop a more in-depth understanding of content. It can also foster civic engagement and decision-making while empowering youth to effect change in their communities.

Join us as we take a deep-dive into project-based learning specifically for young adolescents and give you the tools and practices to employ project-based learning that encourages student reflection on intellectual growth and personal identity.

This institute will provide:

- Engaging and personalized content with the opportunity for facilitated debriefs in a small-group setting
- Opportunities to network and share best practices with other middle years colleagues
